

TPS PRINT LIMITED ENVIRONMENTAL POLICY STATEMENT

TPS Print Limited is a lithographic printer based in Greenwich, SE London. The site operation involves the production and dispatch of printed material including brochures, booklets, stationery, posters and exhibition material.

The Company has achieved environmental accreditation ISO 14001 and FSC Chain of Custody.

TPS Print Ltd recognises that climate change is a serious global problem and as such are committed to minimising our contribution to climate change. To meet this goal we will work as a team to improve our environmental accreditation by achieving links and subsequent awards from Carbon Smart. Furthermore in improving our efforts we aim to reduce our carbon footprint by 20% within 3 years from our current measured footprint of 102.8 tonnes CO2 e.

The Company will operate in compliance with all legislation, waste management procedures and other requirements to which it subscribes. Reviews will be held in line with the requirements of BS EN ISO14001:2004.

To achieve our environmental objectives we will:

1. Reduce our carbon footprint by 5 – 8% in the first year of our carbon reduction programme from our current level of 102.8 tonnes of CO2 e.
2. Communicate to our management and staff what our target is and encourage them to participate in our future environmental plans and goals.
3. Continue to work within ISO 14001 principles and guidelines and ensure the Company maintains accreditation.
4. Inform our suppliers and contractors of our carbon reduction actions and encourage their awareness and compliance.
5. Plan discussions with our landlord to help reduce their carbon footprint and thus work towards our target.

The action plan of TPS Print Ltd will be communicated to our management, staff and suppliers via noticeboards and general communication.

This Environmental Policy will be published and placed on internal noticeboards, distributed during staff initial training and through discussions. A full Annual Review will be held within the Management Review Meetings, held six monthly or earlier should business operations or activities change.

An internal Green Group consisting of Peter James, Jane Cantwell and Ray Howard will be responsible for the action plans implementation and subsequent reduction of our carbon footprint.

Phil Williams
Managing Director
